

Count and trace 1–10

10 pages for ages 3 to 6: trace each number and its name, then count and color.

- Print on plain paper. Crayons and thick pencils are easier for small hands.
- Start at the green dot and follow the dots in order.
- One page a day is plenty. Praise the effort, not the neatness.

More letters, numbers and shapes in the Tico app: no ads, 14 languages, ages 2–6.
